PROFESSIONAL SUMMARY

Aspiring Front-End Developer with a strong foundation in HTML, CSS, and JavaScript, along with experience in building user-friendly and visually appealing web applications. Passionate about UI/UX design and cloud technologies, with hands-on experience in AWS. Eager to apply my skills and continue learning advanced frameworks to contribute to a dynamic development team. Committed to delivering high-quality, responsive, and accessible web solutions.

EDUCATION

Methodist University Ghana

BSc.Information Technology

Expected Graduation:May/June 2025

WORK EXPERIENCE

Volunteer Intern – AWS Cloud Trainee Assistant

June-July 2024

- Knowledge in: Bootstrap and React.

PROJECTS

❖ Expenses chart component challenge on Frontend Mentor

- View the bar chart and hover over the individual bars to see the correct amounts for each day
- See the current day's bar highlighted in a different color to the other bars
- View the optimal layout for the content depending on their device's screen size
- See hover states for all interactive elements on the page
- Use the JSON data file provided to dynamically size the bars on the chart

❖ Age calculator app challenge on Frontend Mentor

- View an age in years, months, and days after submitting a valid date through the form
- Receive validation errors if:
 - Any field is empty when the form is submitted
 - The day number is not between 1-31
 - The month number is not between 1-12
 - The year is in the future
 - The date is invalid e.g. 31/04/1991 (there are 30 days in April)
- View the optimal layout for the interface depending on their device's screen size
- See hover and focus states for all interactive elements on the page
